

WIND Controller

ENAIR PRO-GRID

Leading Features

- Wide input voltage range
- High efficiency ensures efficient power transmission
- Protect electrical equipment when lost the grid suddenly

MODEL	R-PRO-GRID
Rated input power	20kW
Max. AC input voltage	500V
Max. AC input current	40A
Rated DC output power	12kW
Optional DC diversion voltage	1.300-400V
	2.400-500V
	3.500-600V
Rated Dump load output power	8kW
Max. DC dump load output voltage	750V
Max. DC dump load output current	30A
Efficiency	> 99.3%
Operating environment temperature	-25°C ~ 60°C
Protection degree	IP65
Size	276W * 370H * 135D (mm)
Weight	7kg

* Subject to change without notice
